

HiGYP[®] 28

High Performance Acoustic Composite Wall Boards

Product Information

Installing **HiGYP 28** high density composite wall boards will dramatically reduce airborne sound transmission through all types of existing and new build timber stud, metal frame and masonry walls.

Product Benefits

- Only 28mm thick
- Excellent acoustic performance
- High density gypsum facing
- Impact resistant
- Easy to cut to size and install

Technical Information

		HiGYP
		28
Product description	-	Acoustic composite wall lining board with high density facing
Overall thickness'	mm	28
Type of facing board	-	12.5mm thick high density gypsum
Absorbing layer	-	15mm thick LD woodfibre board
Board dimensions	mm	1200 x 2400
Weight	kg/m ² kg/sheet	17.50 50.11
Associated flanking strip required	-	CELLECTA C-strip
