

DECKfon[®] 37T

Direct to Joist Structural Deck Acoustic Floorboards

Product Information

CELLECTA DECKfon 37T structural acoustic composite floorboards are designed for applications where the treatment is laid directly on the floor joists and a new ceiling is installed, to provide outstanding sound proofing.

Product Benefits

- ⊞ Excellent acoustic performance
- ⊞ Only 37mm thick
- ⊞ Incorporate moisture resistant structural floorboard
- ⊞ Recycled resilient layer
- ⊞ Quick and easy to install

Technical Information

		DECKfon
		37T
Product description	-	Direct to joist, two layer composite acoustic structural floorboard
Overall thickness	mm	37
Type of facing board	-	22mm P5 Chipboard
Resilient layer(s)	-	15mm open-cell PU foam*
Board dimensions	mm	600 x 2400
Weight	kg/m ² kg/board	17.20 24.76
Associated flanking strip required	-	YELOfon ES5/100

Third Party Accreditation and Approvals

ISO 9001: 2015

Environmental Credentials
