XFLO[®]

CELLECTA's XFLO boards are manufactured to suit the pipe diameter and spacing required to achieve the desired thermal output. The board's high compressive strength enables it to withstand the rigours of the installation process as well as the long term loads imposed in residential and commercial applications.

Key Benefits

- O High resistance to compression 250, 300 & 500kPa
- O Manufactured to suit pipe and spacing required
- O Works in conjunction with acoustic treatments
- Outstanding thermal output
