

Gobi® System Combinations

Dry Laid Acoustic & UFH Levelling Solution

Product Information

Gobi is the ideal solution to level an uneven concrete separating floor and provide all the benefits an underfloor heating system can deliver, with the added advantages of rapid heat transfer capabilities and outstanding acoustic performance. The dry laid system combines HiDECK Structural boards capable of accepting a multitude of floor finishes.

Product Benefits

- ⊗ Levels all types of separating floors
- ⊗ Works with all pipe diameters and controls
- ⊗ Rapid response times
- ⊗ High compressive strength, accepts all finishes

Technical Information

	C2-25	C2-28	C2-30
Layer	Product	Product	Product
1	HiDECK Structural 25	HiDECK Structural 28	HiDECK Structural 30
2	XFLO JB-FF	XFLO JB-FF	XFLO JB-FF
3	Timber batten	Timber batten	Timber batten
4	DECKfon Cradle	DECKfon Cradle	DECKfon Cradle
Edge strip	YELOfon ES5/120	YELOfon ES5/120	YELOfon ES5/120
Robust Detail Compliance			
Steel floors	E-FS-1: FFT2		
Concrete floors	E-FC-1 & E-FC-2: FFT2		
Timber floors	E-FT-1, & E-FT-2: FFT2
