

Commercial Case Study

PROJECT BACKGROUND – WEST CLIFF HOTEL, BOURNEMOUTH

Project Background

West Cliff Hotel is a two six story Premier Inn which hosts 105 guest rooms and a third block with 88 residential units. The project included the demolition of a previous building then the construction of the hotel, with underground car parking. The hotel is only a 15-minute walk away (0.5 miles) from Bournemouth Pier and the Oceanarium.

Cellecta **ScreedBoard 28** was specified by **HGP Architects** in this luxury refurbishment to improve upon its existing acoustic properties. It's high density, and unique resilient layer provides unrivalled acoustic performance, typically 5dB better than legislative requirements.

Inland Homes was awarded this 3,000m² contract to construct this development in Bournemouth.
