

Residential Case Study

PROJECT BACKGROUND – CROSSWAYS QUARTER, GREENHITHE

Project Background

Crossway Quarter is a development of flats situated 5 minutes from Bluewater Shopping Centre and near the M25. The scheme comprises of the demolition of existing buildings and the construction of 258 flats comprising of market housing - 52 one, 201 two, 5 three bedroom flats with associated parking, cycle storage, landscaping and amenity space. These 1, 2 and 3 bedroom apartments will appeal to investors, first-time buyers and professionals working in the capital and surrounding areas.

Cellecta's **YELOfon HD10+** was specified by **RM_A Architects** and **Shepherd Angelo Architecture** due to its unrivalled acoustic performance in isolating a floating screed from a structural concrete floor. This product is lightweight making it easy to install. **YELOfon HD10+** is also delivered in rolls to ensure it's easy to handle.

Bellway London was awarded this 25,000m² contract for this Robust Detail Registered Site in Kent.
