

Residential Case Study

PROJECT BACKGROUND – HIGHFIELDS, CUBERT

Project Background

Highfields is a development of 30 contemporary family homes on the edge of Cubert on the North Cornwall coast with far reaching countryside views. Located just a short distance from the famous Holywell Bay and stunning coastal walks and with a vibrant village community just outside the front door, Highfields is the perfect mix of coast and country.

Cellecta's **YELOfon HD10+** was specified by **CAD Architects** due to its unrivalled acoustic performance in isolating a floating screed from a structural concrete floor. This product is lightweight making it easy to install. **YELOfon HD10+** is also delivered in 18kg rolls to ensure it's easy to handle.

Legacy Properties was awarded this 2000m² contract for this Robust Detail Registered Site in Cornwall.
