

# Residential Case Study

## PROJECT BACKGROUND – ALISON PARK HOTEL, BUXTON

### Project Background

Alison Park Hotel is a conversion of a former hotel to a complete renovation of the building creating ten new apartments and a townhouse. The project also included a new building extension to a further townhouse, as well as a revamping of the garages into 3 cottages. Situated in the centre of the picturesque and well-known spa town of Buxton, Alison Park Hotel benefits from features such as mock timber framing, and oriel windows and doors.

Collecta **ScreedBoard 28** was specified for this project due to its unrivalled performance. The unique interlocking edges on our **ScreedBoard 28** mean that no screws are required, making it easy to install, a convenience on site saving installation time.

**Amos Group** was awarded this 1,500m<sup>2</sup> contract to develop this refurbishment and extension.

#### Contractor

Amos Group

#### Type of Construction

Residential

#### Project size
